## News Bulletin from the General Superintendent

October 10, 2024

For Credentialed UPCI Ministers Only

### Resources for the Upcoming Presidential Election

The [National Apostolic Christian Leadership Conference](#) (NACLC) is providing resources to assist churches in the United States during this election season. The first resource is a [quick reference guide](#) to the types of political activities and speech churches can engage in during an election. This information was provided by [Church Law & Tax](#). The second resource is a [NACLC 2024 Voter Guide](#) highlighting the political leanings of the US presidential candidates and their running mates, as well as voter registration information for each state.

While we do not endorse political parties or candidates, pastors and church leaders can urge members of their congregations to vote according to Christian values and in support of religious freedom. We appreciate the NACLC's efforts to help church leaders stay informed about these important matters. Finally, I encourage every minister and church member to pray for our nation and the upcoming election, and to vote.

Sincerely in Christ,

David K. Bernard
